## ATVOIP422A2

Voice over IP module + 2 x 20 W / 8 Ω Class D  
Low impedance IP audio matrix multi directionnal

VoIP  
MADE IN   
2 years warranty

- The ATVOIP422A2 is a IP module equipped of 2 amplifiers of 20W for 80hms amplifier line.
- 2 Inputs / 2 outputs multi directionnal in real time.

- 1 ambient mic sensor input with Phantom power supply
- Dry contact for battery test - euroblocks.
- 2 dry contacts for zone selection- euroblocks
- Serial link RS232 / RS485- euroblocks
- RJ45 Ethernet connector
- 24 V Battery connector - euroblocks

Specifications	ATVOIP422A2
Bandwidth	20 Hz à 20 kHz (+/-1dB)
Signal to Noise Ratio	>85dB
Codec	Analog Devices SSM 2603
External power supply	DALIM24AD60 AC / DC Rail Din 60 W
Max consumption	50 W
Usual consumption	10 W
Dimensions : (L x h x p)	180 x 140 x 38 mm
Power Supply	Phantom 18-30V
